

CURRICULUM VITAE

Vahid Gadimov, DSc

Professor

Department of Higher Mathematics and Programming, MIREA – Russian Technological University,
Moscow, Russian Federation

Contact and identifiers

Full name (as in publications)	Vagid Kadymov
Name in Azerbaijani	Vahid Qədimov
Country of residence	Russian Federation
Scientific field	Applied mathematics and mechanics

Profile summary

Vahid Gadimov is a professor in the Department of Higher Mathematics and Programming at MIREA – Russian Technological University, and an acting professor at the Russian University of Transport. The CV gives a 1981 Promotion A (Dr. rer. nat.) on contact problems of plastic flow in a thin metal layer, and a 2000 Promotion B, described as a habilitation and Doctor of Science, on nonstationary contact problems of flow in a thin plastic layer. He was a senior researcher and professor at the Institute of Mathematics and Mechanics in Baku from 1980 to 1997. The CV states more than 200 research publications and more than 45 textbooks, and lists 16 key works.

Education

Years	Degree	Field / thesis title	Institution, city, country
2000	DSc	Habilitation. The nonstationary contact problems of flow in a thin plastic layer	Moscow
1981	Dr. rer. nat.	Some contact problems of plastic flow in a thin layer of metal. Promotion A	Lomonosov Moscow State University. Postgraduate study 1976–1979, Faculty of Mechanics and Mathematics

Academic and professional positions

Years	Position	Department / unit	Institution, city, country
	Professor	Department of Higher Mathematics and Programming	MIREA – Russian Technological University, Moscow, Russian Federation
	Acting professor	Department of Higher Mathematics and Natural Sciences	Russian University of Transport (RUT-MIIT), Moscow, Russian Federation
	Scientific adviser		Moscow State University of Technology STANKIN, Moscow, Russian Federation
2014–2020	Senior researcher and professor		Moscow State University of Humanities and Economics, Moscow, Russian Federation

Years	Position	Department / unit	Institution, city, country
1997–2014	Professor and project lead	Department of Mathematics	Moscow State University of Mechanical Engineering (MAMI), Moscow, Russian Federation
1997–2006	Senior researcher and professor		Mechanical Engineering Research Institute, Russian Academy of Sciences, Moscow
1980–1997	Senior researcher and professor		Institute of Mathematics and Mechanics, Azerbaijan Academy of Sciences, Baku, Azerbaijan

Research metrics

Indicator	Value	Source	Date checked
Research publications	More than 200	CV	June 2024
Textbooks	More than 45	CV	June 2024

Publications

Books and textbooks

1. **Kadymov, V.** Mathematical modelling of contact problems of plastic flow. Palmarium Academic Publishing, 2016.

Book chapters

1. **Kadymov, V.;** Yanovskaya, E. A. Some applications to the design of partial solutions for nonlinear equations of mathematical physics. In: Nonlinearity: Problems, Solutions and Applications. Nova Science Publishers, New York, 2017, vol. 1, pp. 171–199.

Peer-reviewed journal articles

1. **Kadymov, V.;** Sosenushkin, E. N.; Yanovskaya, E. A. Contact problems of plastic flow in a thin layer: theory, analysis of solutions and their applications. Problems of Mechanical Engineering and Machine Reliability, 2022, no. 3(22), pp. 18–28.
2. **Kadymov, V.;** Sosenushkin, E. N.; Yanovskaya, E. A. Some exact solutions of the evolutionary equation of the spreading of a plastic layer on a plane. Bulletin of Moscow State University, series 1, Mathematics and Mechanics, 2016, no. 3.
3. **Kadymov, V.;** Sosenushkin, E. N.; Yanovskaya, E. A., et al. The parameters of the stress state in the operations of plastic deformation. Key Engineering Materials, 2016, vol. 684, pp. 57–66.
4. **Kadymov, V.** On one mathematical model of the flow in a thin plastic layer. Mathematical Methods in the Applied Sciences, 2015, vol. 38, issue 16.
5. **Kadymov, V.;** Belov, N. A. Analysis of the boundary-value problem of the flow of a plastic layer between approaching rigid plates. Izvestiya of the Russian Academy of Sciences, 2011, no. 1.
6. **Kadymov, V.;** Kiiko, I. A. Generalization of L. Prandtl's problem of plastic-layer compression. Bulletin of Moscow State University, 2003.
7. **Kadymov, V.** Mathematical modelling of contact problems of plastic flow. Nonlinear Analysis: Theory and Applications, 1997, vol. 30, no. 8.
8. **Kadymov, V.** Contact interactions of solid and plastically deformable bodies, taking into account the active influence of the intermediate medium. Technische Mechanik, Germany, 1989, vol. 10, no. 3.

Conference papers and abstracts

1. **Kadymov, V.;** Sosenushkin, E.; Yanovskaya, E. Contact problem of complex loading of a plastic strip. 2nd International Conference ITTA-2024, Baku, 20–22 April 2024, p. 84.
2. **Kadymov, V.;** Sosenushkin, E.; Yanovskaya, E. Some exact solutions of the nonlinear evolutionary equation of the spreading of a plastic layer on a plane. E3S Web of Conferences, 2023, vol. 458.

3. **Kadymov, V.** Contact problems of plastic flow in a thin layer: theory, boundary-value problems, solutions and applications. International conference Nonlinear phenomena in biology, ecology, physics and mechanics, UNEC, Baku, 22–26 October 2023, pp. 17–18.
4. **Kadymov, V.;** Mironov, B. Plastic flow in a thin layer: analogy with the problem of torsion of rods. II Scientific Conference MMSA-2021, vol. 2497, no. 1, 4 May 2023.
5. **Kadymov, V.;** Gordon, E. Research of design problems of technological processes for stamping multilayer structural elements. 8th International Conference on Control and Optimization with Industrial Applications (COIA-2022), Baku, 24–26 August 2022, vol. 1.
6. **Kadymov, V.;** Sosenushkin, E. N. Plastic flow in a thin layer: new formulation of the boundary-value problem and its solution. EPJ Web of Conferences, 2019, vol. 224. IV International Conference MNPS-2019.

Grants and research projects

Years	Project title	Funding body	Your role
2011–2012	Some problems of the mathematical theory of plasticity as applied to the mechanics of pressure treatment	Ministry of Education	Responsible executor
2006–2011	Mathematical models of some modern problems in pressure-processing technology	RFBR	Lead executor. MAMI with the Faculty of Mechanics and Mathematics, Moscow State University

Teaching

Years	Course	Level	Institution
	Differential and integral calculus; linear algebra; vector analysis; analytical geometry; ordinary differential equations; equations of mathematical physics; tensor analysis; linear programming		MIREA

Invited talks and conference participation

Year	Event, place	Type	Title of talk
1995, 1997	TU Hamburg-Harburg, Germany	Invited lectures and joint research	
1997	TU Karlsruhe, Germany	Invited lectures and joint research	
1997, 2001	TU Berlin, Germany	Invited lectures and joint research
