

CURRICULUM VITAE

Aynur Guliyeva, PhD

Associate Professor

University of Technology Tarbes Occitanie Pyrénées (UTTOP / ENIT), Tarbes, France

Contact and identifiers

Full name (as in publications)	Aynur Guliyeva
Name in Azerbaijani	Aynur Quliyeva
Country of residence	France
Institutional email	aynur.guliyeva@uttop.fr
Scientific field	Chemistry of materials; polymer science

Profile summary

Aynur Guliyeva is an associate professor at the University of Technology Tarbes Occitanie Pyrénées, where she has worked since January 2024. She received a PhD in chemistry of materials from the University of Orléans in 2016–2019, a Master 2 in polymers for advanced technologies from the University of Grenoble Alpes in 2015–2016, and a bachelor's degree in chemistry from Baku State University in 2010–2014. She was a scientist at Lonza Capsugel in Colmar, a research engineer at PIMM, ENSAM in Paris, and a postdoctoral researcher at the University of Delaware. The CV lists 8 published articles.

Education

Years	Degree	Field / thesis title	Institution, city, country
2016–2019	PhD	Chemistry of materials. Funded by the Ministry of Higher Education and Scientific Research of France. Supervisors: Marylène Vayer and Christophe Sinturel	University of Orléans, ICMN-CNRS, Orléans, France
2015–2016	Master 2	Polymers for advanced technologies. Azerbaijan government scholarship	University of Grenoble Alpes, France
2014–2015	Master 1	Chemistry and life sciences. Campus France scholarship	Joseph Fourier University, Grenoble, France
2010–2014	BSc	Chemistry. Azerbaijan government scholarship	Baku State University, Baku, Azerbaijan

Academic and professional positions

Years	Position	Department / unit	Institution, city, country
January 2024–present	Associate Professor		UTTOP / ENIT, Tarbes, France
October 2022–December 2023	Scientist	Research and development, hard capsules	Capsugel, Lonza, Colmar, France

Years	Position	Department / unit	Institution, city, country
June 2021–October 2022	Research engineer		PIMM, ENSAM, Paris, France
November 2019–June 2021	Postdoctoral researcher		University of Delaware, Newark, Delaware, United States. Supervisor: Thomas H. Epps III

Research metrics

Indicator	Value	Source	Date checked
Published articles	8	CV	
Oral communications, of which 3 international	6	CV	
Poster communications, of which 2 international	3	CV	

Publications

Peer-reviewed journal articles

Awards, honors and fellowships

Year	Award / honor	Awarding body
2018	Best oral award	GFP Grand Ouest, Le Mans, France

Supervision

Level	Number	Notes
PhD students and postdocs		UTTOP, from 2024. Numbers not given
Master's students	3	Material selection for sustainable hydrofoil design
Bachelor's students	3	Marine-waste recycling, five months

Teaching

Years	Course	Level	Institution
2024–present	Chemistry; introduction to polymers; thermodynamics; structure–property relations of polymers. 192 hours a year	Bachelor's and master's, engineers	UTTOP / ENIT
2016–2019	Inorganic and general chemistry practicals. 64 hours a year. Mentoring of 5 high-school students for 3 years, EDIFICE	Second-year bachelor's	University of Orléans, France

Invited talks and conference participation

Year	Event, place	Type	Title of talk
1–4 July 2024	IUPAC Macro 2024, Warwick, England	Poster	Structure-property relationship of nanostructured functionally graded epoxy adhesives
27 June–1 July 2022	EPF, Prague, Czech Republic	Oral	Nanostructured actuators based on block copolymers with ionic liquids
13–16 June 2022	BPC 2022, Bordeaux, France	Oral	Rapid self-assembly of block copolymers with ionic liquids
9–14 June 2019	EPF, Crete, Greece	Oral	From cylinders to rectangular rods in thin films of PI-b-PS-b-P2VP
18–20 June 2018	EMRS Spring Meeting, Strasbourg, France	Poster	Selective domains identification in thin films of ABC block terpolymers: a case study of PI-b-PS-b-P2VP
24–25 May 2018	GFP Grand Ouest, Le Mans, France	Oral	Nanostructured surfaces obtained from ABC block terpolymer in thin films
20 April 2018	Journées Jeunes Chercheurs, Orléans, France	Oral	Nanostructuration de films minces à base de PI-b-PS-b-P2VP
20–23 November 2017	JNTE 2017, Orléans, France	Poster	Nanostructured surfaces using triblock polymer self-assembly
1–6 October 2017	JEPO 45, Gravelines, France	Oral	Archimedean nanostructuration of thin films based on linear PI-b-PS-b-P2VP
October 2016	Festival of Science, Orléans, France	Poster	Lotus effect and superhydrophobicity
