

CURRICULUM VITAE

Rasim Jannataliyev, PhD

Project Manager, Intelligent Energy Systems

EnBW AG, Stuttgart, Germany

Contact and identifiers

Full name (as in publications)	Rasim Jannataliyev
Name in Azerbaijani	Rasim Cənnətəliyev
Country of residence	Germany
Scientific field	Energy systems; thermal engineering

Profile summary

Rasim Jannataliyev is a project manager for intelligent energy systems at EnBW AG in Stuttgart, where he has worked since June 2013. He holds a PhD from Azerbaijan Technical University (2004–2007); the CV also gives his title as Dr.-Ing. His thesis topic was the thermal properties of heat-transfer fluids for absorption refrigeration machines and heat pumps. Earlier he was a research assistant at the University of Rostock and at Azerbaijan Technical University, and a guest scientist at the Stuttgart University of Applied Sciences. The CV lists his languages as German, Azerbaijani, Turkish, and Russian, without proficiency levels.

Education

Years	Degree	Field / thesis title	Institution, city, country
September 2004–November 2007	PhD	Investigation of thermal properties of new heat-transfer fluids of absorption refrigeration machines and heat pumps	Azerbaijan Technical University, Baku, Azerbaijan
September 2002–May 2004	Master's degree	Investigation of the heat capacity of some heat-transfer media at high pressure	Azerbaijan Technical University, Baku, Azerbaijan
September 1998–May 2004	Bachelor's degree	Development of the Mark system for the production of hydrogen in closed geothermal systems	Azerbaijan Technical University, Baku, Azerbaijan
May 1998	Secondary-school leaving certificate		

Academic and professional positions

Years	Position	Department / unit	Institution, city, country
June 2013–present	Project Manager, Intelligent Energy Systems		EnBW AG, Stuttgart, Germany. Analysis and optimization of energy systems; dimensioning of generation and consumption plants; modeling and forecasts for resource planning; energy balances and efficiency evaluation

Years	Position	Department / unit	Institution, city, country
April 2011– June 2013	Guest scientist	Civil engineering, building physics, and economics	University of Applied Sciences Stuttgart (HFT), Stuttgart, Germany. Modeling of geothermal heat pumps, solar systems, and heating and cooling systems
September 2009–April 2011	Research assistant		Azerbaijan Technical University, Baku, Azerbaijan. Solar thermal energy, wind energy, heat pumps, and heating and cooling systems
October 2008–July 2009	Research assistant		University of Rostock, Rostock, Germany. DAAD-funded project on ecological problems of the Caspian Sea; thermodynamic properties of seawater (density, isothermal compressibility, thermal expansion, and p, ρ , T properties)

Grants and research projects

Years	Project title	Funding body	Your role
2008–2009	Ecological problems of the Caspian Sea	DAAD	Research assistant
