

CURRICULUM VITAE

Khalil Kalantar, PhD

Senior Researcher and Developer

Global Optical Solutions & Kepler, Japan

Contact and identifiers

Full name (as in publications)	K. Käläntär
Name in Azerbaijani	Xəlil Kələntər
Country of residence	Japan
Scientific field	Optical engineering and display technology

Profile summary

Khalil Kalantar is a senior researcher and developer at Global Optical Solutions & Kepler. The CV states a bachelor's degree in electronics engineering in 1980 and further degrees in Japan: a master's in 1984 at Toyohashi University of Technology, a doctorate in 1987 at Nagoya University, and a doctorate in 2003 at Tohoku University. It also states a first PhD from Toyohashi University of Technology and a second from Tohoku University. Since 1995 his work has concerned optical devices for liquid-crystal displays, including light-guide plates. The CV states more than 96 articles, nearly 100 patents, three books in Japanese, and more than 15 book chapters.

Education

Years	Degree	Field / thesis title	Institution, city, country
2003	DE		Tohoku University, Japan
1987	DE		Nagoya University, Japan
1984	ME		Toyohashi University of Technology, Japan
1980	BE	Electronics engineering	Polytechnic University

Academic and professional positions

Years	Position	Department / unit	Institution, city, country
	Senior Researcher and Developer		Global Optical Solutions & Kepler
1995–present	Development of optical devices and modules for LCD units		
	Three years at Samsung-Cheil Mojik		South Korea
	Advisor		Aomori Prefecture, Japan

Research metrics

Indicator	Value	Source	Date checked
Articles in English, Japanese, and Chinese	More than 96	CV	

Indicator	Value	Source	Date checked
Patents, issued and pending, in Japan, the United States, Canada, Europe, South Korea, and Taiwan	Nearly 100	CV	
Book chapters in Japanese and English	More than 15	CV	
IEC documents since 2008	7	CV	

Publications

Books and textbooks

1. **Käläntär**, K. LCD Backlighting Technologies. In Japanese.
2. **Käläntär**, K. LED Backlighting Technologies. In Japanese.
3. **Käläntär**, K. Technological Lighting Exploitation for LCDs. In Japanese.

Awards, honors and fellowships

Year	Award / honor	Awarding body
December 2023	KUM (Kobayashi-Uchiike-Mikoshiba) Award	International Display Workshops, Japan
2018	IEC 1906 Award	International Electrotechnical Commission
2016	Research and Development Award	Japanese Liquid Crystal Society
2013	SID Fellow	Society for Information Display
2011 and 2018	Distinguished Paper Award	Society for Information Display
May 2007	Special Recognition Award, optical design of LCD backlight light guides	Society for Information Display
